PO Box 1, Stratford, NJ 08084 : www.revelwood.org

The legendary “Coup D’Etat” issue of the Shire of Iron Bog’s official newsletter (March, 1987) confirmed the worst fears of those in power in Iron Bog. They had finally lost control. The issue was filled with the musings of Pryc - The Purist Poet, Viking Shopping Tips, a declaration of a religious war, first hand accounts of Lars Ratchette (Breath) and his attempted coup, and the usual Shire business announcements. The Chroniclers of record were Cheron of Wolffe and the IB.

You are as much a part of our pleasure as we are of yours. Revelwood is made special by the combination of all our efforts, not the titles, names or relationships of a select few. Anyone who says “I am Revelwood-cater to me” misses the point. The Rescue Rangers do not miss the point. They get it. We agree... let us continue together to enjoy the good times yet to come.)
